

### **REQUIREMENTS TO SIGHT LEVY PAYMENT CLARIFIED**

A correction to the advice provided in Newsflash number 50 discussing the legislative amendments enacted by the *Local Government and Other Legislation Amendment Act 2000* is necessary.

The newsflash should have stated:

“The “*Building and Construction Industry (Portable Long Service Leave) Act 1991* (s. 77) is amended to clarify that it is an offence for a private certifier to receive a development application for building works if the private certifier has not seen an approved form issued by the Authority signifying payment of the Portable Long Service Leave levy”.

Newsflash number 50 indicated that payment should be made before an approval is issued. Payment in fact should be made before an application is received.
