## Live Fire Experience Workshop

### Purpose

To advise that Queensland Fire Rescue Service Training and Emergency Management Unit and State Community Safety Unit will be hosting a one-day live fire programme on Monday 3 March 2008 for fire engineers and people who work in fire related industries or who have an interest in the fire safety design of buildings.

### Background

This programme has been developed to give participants the opportunity to gain a better understanding of fire and smoke behaviour and fire fighting techniques by involving them in a series of real fire simulations. All participants will be able to gain first hand experience of real fires in building enclosures, including fire initiation and development, fire and smoke spread flashover, the use of fire fighting equipment, fire fighting and search and rescue techniques, and more.
