MODEL HANDBOOK FOR STRUCTURAL SOFTWARE

Purpose

To advise industry that a new model handbook titled the *Use of Structural Software for Building Design Approval* can now be accessed on Department of Infrastructure and Planning's website.

Information

The Australian Building Codes Board has published a new model handbook the *Use of Structural Software for Building Design Approval*. The handbook is not mandatory or regulatory in nature. It provides general information to assist both software providers and users in understanding the attributes a software package should have to be suitable for use to derive compliant design solutions.

To access the handbook please follow this link:
