The Committee meeting began with an update from the Department about the NCC Strategic Repositioning Project progress including the revision of the Terms of Reference to include new members.

The Committee then revisited discussions around the strategic framework, noting that work on the performance and reporting framework had been progressing through a sub-group of the Committee.

Members discussed next steps for planning engagement and consultation with NCCs in relation to the strategic framework. The Committee will continue to formulate an engagement and consultation strategy with intention to connect with NCCs in later 2022 and/or early 2023.
